

Dear Hiring Manager,

I hope this message finds you well. Thank you for considering my application. I am excited to express my strong interest in joining the June 2024 cohort of the Full-Stack Engineering Training Program at CVS. As a recent graduate of a full-stack web development program eager to prove myself and continue my journey towards becoming a proficient full-stack web developer, I believe I am an ideal candidate for this program.

During an intensive full-stack boot camp, I honed my skills as a developer. I developed responsive and user-friendly web applications using React, JavaScript, HTML, and CSS. On the backend, I gained proficiency in using Express, Sequelize, and PostgreSQL to handle data collection, storage, and manipulation. Working in an Agile development environment, I participated in two-week sprints and engaged in paired programming to tackle complex issues and deliver tangible solutions.

The opportunity to further refine my skills within this cohort and under the guidance of a senior developer is a dream come true. Being a part of such a reputable company as CVS is particularly appealing to me. CVS has consistently stood out as a beacon of support during challenging times, notably during the pandemic when it made significant efforts to assist as many people as possible. Contributing to a team that enhances access to essential services for the community is deeply motivating.

I invite you to review my portfolio, which showcases my most recent projects and continued education post-boot camp. I am enthusiastic about the possibility of discussing this opportunity further with your team. Thank you for considering my application. I eagerly anticipate the chance to learn and grow with CVS.

Warm regards,

Tyler
